## PROGRAMS

- Fine Arts
- Art Education / Art Pedagogy (please apply for Fine Arts)
- Interior Architecture
- Architecture & Arts

## FINE ARTS - CLASSES

Fine Arts and Art Education students are organized in class structures. In these classes students of all semesters work and learn together. We recommend that students of Fine Arts & Art Education do research on classes and professors, to make sure approaches match.

Find here more information on [AdBK Fine Arts classes](#).

Find here more information on [AdBK Art Education classes](#).

In addition, students of these programs can choose from a wide range of cross-curricular offers e.g. theory, art history, philosophy, interdisciplinary studies, study workshops, life drawing and various teaching assignments. All those offers are open for all students of all programs and semesters.

## FINE ARTS – SCHEDULE

Students will not be led by a given schedule, but have to organize a schedule by themselves. Class professors will inform about class appointments and requirements and of course feedback concepts, projects and artistic work. In addition, students need to organize e.g. appointments with study workshop lecturers themselves. The International Office will offer support.

## GRADES

Artistic work in Fine Arts and Art Education is graded with passed or failed. Theory classes only will be issued with numeric grades on the Transcript of Records, and only if students hand in seminar papers or other required works as named by the responsible theory professors or lecturers.
